

BiDistrict Project Number: FY12-6918-1

Host Club: Cuauhtémoc – 6918

Project Title: Treated Water Supply for San Antonio Park in Cuauhtémoc

Project POC: Dr. Ivan Avila Reyes, 625-582-5683, driavilareyes@hotmail.com

Project Cost: \$282,624

Project Description: The project will install water lines to supply treated water to irrigate San Antonio Park in Ciudad Cuauhtémoc. Currently the park is irrigated with drinking water and using treated water would allow that water to be used for the people of the city. The project includes the installation of the water lines, pumping capacity and the sprinkler system for the park. It is anticipated that project should be complete within 60 days of funding and will benefit the inhabitants of Ciudad Cuauhtémoc, a city of more than 100,000 people.

BiDistrict Project Number: FY12-1291-1

Host Club: Albuquerque – 1291

Project Title: YWCA's TechGYRLs

Project POC: Joanne Nagel Connolly, 505-615-3581, inagelc@gmail.com; Ron Salley, 505-798-9904, jrsalley@comcast.net

Project Cost: \$30,500

Project Description: This project will purchase equipment, supplies, and laptop computers needed to support the expansion of the TechGYRLs program. This is an after-school program and a series of one-week, overnight summer camps for disadvantaged young girls. The long-term goal is to broaden the knowledge and confidence in girls (ages 9-14) in science, technology, engineering, and math. The TechGYRLs curriculum is designed to help girls develop technical, communication, time-management, and presentation skills. The girls work in teams of 2-3 and design and build robots using Lego robot kits. By using the computers, the girls are taught to control the motion and sound of the robots.

BiDistrict Project Number: FY12-50144-1

Host Club: Nuevo Casas Grandes Paquimé

Project Title: Giving Hope to a Better Future

Project POC: Jorge Prado, casagrande1@prodigy.net.mx

Project Cost: \$??,???

Project Description: The goal of this project is to ensure that children do not leave school because of lack of resources. This project will provide needy grade 1-6 children with the items they need to complete the academic year. Items to be provided include: backpacks, notebooks, pencils and pens, crayons, etc., as well as sports and school uniforms, both sports and street shoes and the necessary school registration fee.

BiDistrict Project Number: FY12-50144-2

Host Club: Nuevo Casas Grandes Paquimé

Project Title: Rolling to the Knowledge

Project POC: Jorge Prado, casagrande1@prodigy.net.mx

Project Cost: \$??,???

Project Description: This program is to provide a school bus to transport students located in remote and nearly inaccessible areas to school. By ensuring that these children have a means of attending school, we will provide them with the opportunity for a brighter future.

BiDistrict Project Number: FY12-25169-1

Host Club: Santiago de la Monclova

Project Title: Purified Water at Your School

Project POC: Luis Velazquez, luisvelzaz@hotmail.com

Project Cost: \$??,???

Project Description: Due to the lack of a budget to buy bottled water, we are installing water purification systems (filtration, reverse osmosis, ultraviolet lamps, tanks, piping, pumps and water coolers) in the schools so the children can drink purified water in their classrooms. We have given purified water to 1,600 already, but there are a lot more schools that require this improvement. The project costs about \$4,000 per school.
